Rebecca,

FYI. Need to discuss some of these.

**Subject:** follow up on Animas River call

Carolyn –

Thanks so much for putting together the call this afternoon, it was very helpful. We just wanted to follow up with a list of the documents/information identified on the phone call that E&C requests for its oversight purposes by the end of next week:

1. Please specifically identify the contractor(s) working on the site
2. Fact sheet discussed on the call
3. Timeline of the incident
4. Risk assessment (or any related documents) for the Gold King mine
5. Planning documents relating to the work done at the Gold King mine and any related investigation work at mines in the Upper Animus Mining District
6. Engineering report for the Gold King mine (if not time-critical action)
7. Access agreement with owner of Gold King mine
8. 1996 consent decree with predecessor of Kinross
9. Specifically identify all PRPs at the site
10. Identify everyone that was present at the time of the incident, what their role was, and who was involved with making the decision to do the work at the Gold King mine
11. Contract with the contractor performing the work at the Gold King mine
12. Action memo and enforcement appendix for the Gold King mine
13. Enforcement appendix Red and Bonita mine site removal action
14. Explain the relationship between the work at the Red and Bonita mine site removal action and the Gold King mine.

We understand some of this information may be non-public, and will treat it appropriately. As time allows, we may seek follow-up calls for E&C Committee staff with relevant Region officials. Please let us know if you have any questions.

Thanks!

Tina
